

Japan Visa Guidelines

1. Application Timeline

- Average processing time is **5–7 working days**, but this may vary depending on VFS and Embassy timelines.
- If you do not have a confirmed travel date, we recommend submitting your documents **at least 2 - 3 months before your intended departure**.
- Early submission allows ample time for processing, resolving potential issues during verification, and ensuring you receive your visa result well before your trip.

2. Computerized Forms Only

- All application forms must be **typed (computerized)**, including **Page 2 – Inviter/Guarantor information in Japan** and the date.
- If there is no inviter/guarantor in Japan, type **N/A** in the relevant fields (do not leave blank).
- **Handwritten forms will not be accepted** and must be resubmitted in computerized format.

3. Multiple-Entry Visa Applications

- Submit a **computerized Multiple-Entry Request Form** clearly stating your reason for applying.
- Tick the box for your chosen criteria on the Multiple-Entry application form.

4. Paper Size Requirement

- All forms and authorization letters must be printed on **A4-size paper**.
- The VFS is strict about paper size compliance.

5. Form Accuracy

- No erasures or corrections are allowed on the application form.

6. Authorization Letters

- Applicants must submit **two (2) sets of authorization letters**.
